The Louisiana State University Mechanical and Industrial Engineering Graduate Student Conference is an annual exchange of ideas and research in different areas of Mechanical and Industrial Engineering. The conference is aimed at bringing the graduate students together for a day of research presentations to foster cross-disciplinary discussions and collaborations. The opportunity to present current research in mechanical and industrial engineering is being offered to all master's and doctoral students in Louisiana Universities planning to graduate in 2018. Awards will be granted to three best presentations as judged by all the participants.

This conference is organized by the graduate students and faculty of Mechanical and Industrial Engineering Department of Louisiana State University.
